

ASD S1000D – From Theory to Practical Use in the Austrian Armed Forces

presented by

Col Werner F. FRIEDL, Austria NCB

at the S1000D User Forum 2013, Vienna, 17th Sept 2013

- Air Materiel Staff to introduce EUROFIGHTER
 - CSDB and IETP-X AT acc. ASD S1000D
 - Participate in ASD committees
- Intention to use CSDB and IETP-X for projects of entire Armed Forces
- AAI-ILS-WG-AT established
 - Share experiences with ILS standards amongst industry and government
 - Coordinate national requirements and activities for ILS standards
 - Implement national guidelines
 - S1000D NSG-AT
 - S2000M NSG-AT (draft)

- Projects: mainly air materiel, communications
- Restrictions: IETP often cut due to budget shortage
- Possible new application of S1000D for combat simulation systems

- MoD policy:
 - continue standardisation
 - co-operation with industry through the AAI-ILS-WG-AT
